

Ideas take shape together

Human judgment gives direction.
AI gives momentum.

02

From fragments to one shared story

A visible sequence turns useful mess
into a direction people can improve together.

Clarity is a sequence, not a spark

FIVE MOVES

Collect the useful mess
before narrowing.

Name the audience decision
that matters.

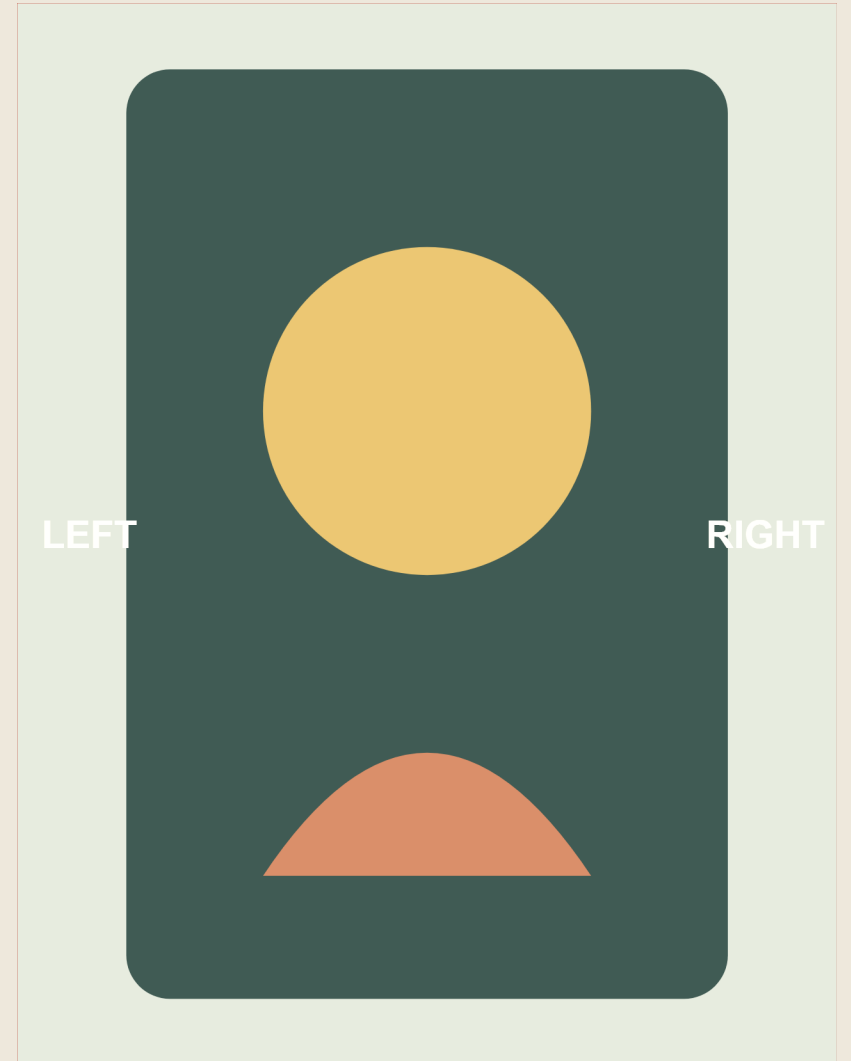

Arrange evidence around
one narrative spine.

Test whether every slide
earns its place.

Refine language until
the direction is obvious.

Make the reasoning visible

- Externalize incomplete ideas early.
- Keep the central subject clearly protected.
- Use feedback to sharpen the shared model.
- Preserve intent while changing presentation.

Portrait media selects the portrait composition without changing the slide's semantic role.

A blurred background image showing two people, a man and a woman, sitting at a table in what appears to be a meeting or collaborative work environment. The man is on the right, wearing a dark shirt, and the woman is on the left, also in a dark top. They are both looking towards the camera. The background is out of focus, showing vertical lines that could be window frames or office partitions.

One table, several
useful perspectives

Three modes
create
one shared
direction

40%
Explore widely

25%
Align visibly

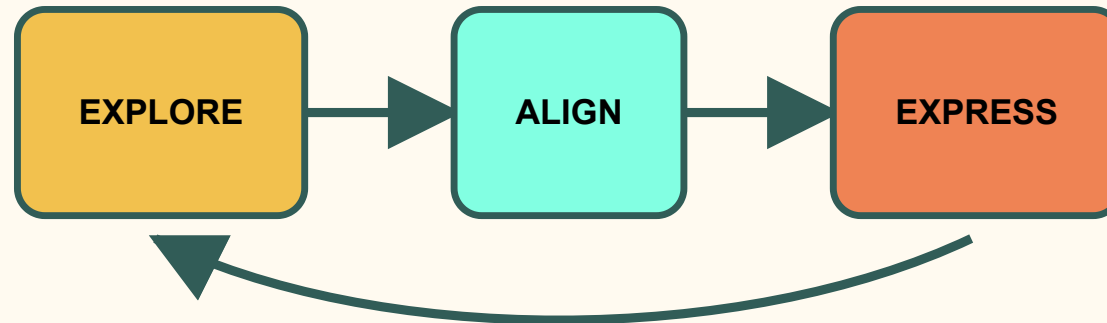

25%
Express clearly

10%
Reflect together

*The proportions differ, but every mode contributes
to a decision people can explain.*

The process loops while direction holds

Explore flows to Align and Express;
feedback then returns to Explore.

*Theme decoration stays outside the protected diagram panel,
labels, and connectors.*

DESIGN PRINCIPLE

The theme should
carry the mood—
never obscure
the meaning.
